

U.S. Patent Application Serial No. 10/566,987  
Amendment filed December 12, 2008  
Reply to OA dated September 12, 2008

**AMENDMENTS TO THE CLAIMS:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

Claim 1 (Currently Amended): An image pickup device capable of photographing still images during photography of a moving image, wherein:

a first notifying means for visually notifying a subject that a photographic operation of a still image is to be performed when a release button is pressed half-way down during photography of a moving image is provided; [[and]]

the photographic operation is performed when the release button is fully pressed; and  
the first notifying means is a light emitting means which lights up or flashes when the release button is pressed half-way down.

Claim 2 (Canceled)

Claim 3 (Canceled)

Claim 4 (Original): The pickup device according to claim 1 wherein settings related to the photography operation are displayed in a display portion when the release button is pressed half-way down.
